

ARTICLES AND REVIEWS

	1965	New Scientist	first piece for Monitor (anon.)
Nov 30	1973	Nature	Nature of redshifts (report)
	1973	New Scientist	Out of the zenith (Lovell review)
Nov/Dec	1974	Bull.IMA	Cosmology (article)
Aug 7	1975	New Scientist	Far Infrared Astronomy (report)
Oct 9	1975	Nature	Nature of redshifts (report)
Jan 22	1976	New Scientist	Molecules among the stars (feature)
Dec 16	1976	Nature	Controversy over distance scale (reprt)
Oct 18	1979	New Scientist	Mayan Astronomy (feature, with Mary)
Nov 8	1979	Nature	Brocca's Brain (review)
	1979	Nature	Runaway Universe (review)
			Four books on Relativity and Cosmology
			The state of the universe
			Introduction to Cosmology (review)
	1979-81		Gresham lectures
Jan 31	1980	New Scientist	Infrared Landscape (feature)
Feb 28	1980	Nature	Theor. Physics and Astrophys. (review)
Oct 8	1981	New Scientist	Mayans lived by Venusian calendar (report)
	1981	Camb.Poetry Fest.	What is the use of poetry in a world in Jeopardy (lecture)
Aug 26	1982	New Scientist	Population III – a cosmological atlantis (report)
Nov 4	1982	New Scientist	Great Quasar Odyssey (feature) Cosmic Discovery (review) Cargese lectures Aspects of the universe
Jan 20	1983	New Scientist	Accidental Universe (review)
May 22	1986	New Scientist	Duheim's Medieval Cosmology (review)
	1986	Nature	Cosmological constants (review)
	1986	Observatory	Galaxy distances (review)
	1986	Observatory	Environmental consequences of nuclear war – SCOPE report (review)
Oct 2	1986	New Scientist	In search of the Big Bang (review)
Dec 12	1986		death of a star (review)

Feb 5	1987		Grand tour – Salpeter symposium (rev.)
Feb	1987	New Scientist	Highlights of modern astrophysics (rev.)
Mar	1987	New Scientist	Descartes Dream (review)
April 22	1987	Nature	Light from the depths of time (review)
Sept 21	1987	New Scientist	Beyond infinity (review)
Oct 22	1987	New Scientist	Astronomy under attack (Feedback)
Feb	1988	Nature	Cosmology, Discovering the universe (review)
May 26	1988	New Scientist	Invisible universe revealed (review)
Sept	1988	New Scientist	Great Experiments in Physics (review)
Oct	1988	New Scientist	Darkness at night (review)
Nov	1988	TES	Let Newton be (review)
Nov	1988	Nature	Quasars, redshifts and controversies (review)
	1988		Radio landscape (review)
	1988		Mankind's place in the cosmic landscape (Goethe lecture)
Mar	1989	Gemini , RGO	On the IRAS trail
July 4	1989	New Scientist	Bubbles, voids and bumps in time (rev.)
Oct 16	1989	New Scientist	Supernova 1987A
Oct	1989	Nature	Encyclopedia of Astronomy and Astrophysics (review)
Jan	1990	TES	Universal Voyage (review)
Sept	1990	New Scientist	30 years of the new astronomy (feature)
		TES	The meaning of life (review of 'Two Cultures' etc
		THES	The meaning of the ripples
Mar 9	1991	New Scientist	Cosmology in crisis
Nov 20	1992	THES	Don's Diary
		THES	Pi in the Sky (review)
		TES	End of Nature/Rebirth of Nature (rev.)
		TES	Probing the first microsecond of creation (rev.)
		TES	Genius: Feynman and modern physics (review)
		Telegraph	A letter to myself, aged 22
		Guardian	Does life, the universe and everything have a meaning ?
		New Scientist	A day in the life of a cosmologist (COBE)

Waldegrave challenge Why physicists want to detect the Higgs boson (with M.Green)

Oct 28	1993	Guardian	Flying in the face of God
June	1994	Physics World	Building bridges between arts and Science
Nov	1994	Physics World	Is the standard model of the universe in trouble ? (feature)
Jan 25	1996	Nature	The wilder shores of cosmology (review round-up)
Apr 11	1996	Nature	CAT eyes the early universe
Sept 11	1997	Nature	New Astronomy (review of elec journal)
Dec	1999	Physics World	Astrophysics and Cosmology: the Golden age (feature)
March	2001	Physics World	Encyclopedia of Astronomy and Astrophysics (review)
Feb 3	2001	New Scientist	Life inside the cosmic egg (review)
July	2001	OU: Truth will out	Alternative arguments: why we are Alone
Jan	2002	Physics World	Aristotle: the first physicist
June 1	2002	New Scientist	Resisting the dark side (feature)
July	2002	New Scientist	The extravagant universe (review)
Feb	2003	Southwold Gazette	The floods of 1953
Apr	2003	New Scientist	SIRTF (feature)
May	2003	Physics World	Some things never change (or not a lot) (Barrow review)
Oct	2003	Guardian	Hubble Space Telescope (interview)
Aug	2005	Physics World	Empire of the Stars (review)
June	2006	Sky at Night	Akari
Sept	2006	Southwold Organ	Prague Diary
Sept 6	2006	Research Fortnight	Astronomy funding
June	2007	Physics World	Life, the Universe and Everything (Gribbin review)
June	2007	Astron & Geophys	Terahertz surveys
Nov	2007		Never-ending Days of Being Dead (review)

Apr	2008	Grzimek Encycl	Cosmology
Sept	2008	Galileo book	Cosmological Distance Ladder
Dec	2008	RAS e-leaflet	Cosmology
	2009	New Scientist	The Herschel mission (feature, with Matt Griffin)
Aug	2010	New Scientist	Unseen Universe (Instant Expert)
Apr	2011	Physics Today	Allan Sandage (obituary)
